## Career Summary

Computer Science Engineering undergraduate passionate about Full-Stack Web Development and software engineering. Skilled in Python, JavaScript, Flask, Object-Oriented Programming, and Data Structures with hands-on experience in responsive web applications and API-based development.

## Education

|                                             |                |
|---------------------------------------------|----------------|
| <b>ITER, SOA University, Bhubaneswar</b>    | 2023 – Present |
| B.Tech in Computer Science Engineering      | CGPA: 7.98     |
| <b>Birendra Ayan High School, Jharkhand</b> | 2020 – 2022    |
| Senior Secondary (JAC)                      | 82.2%          |
| <b>Dr. Bhabha Public School, Jharkhand</b>  | 2019 – 2020    |
| Matriculation (CBSE)                        | 76.17%         |

## Technical Skills

|                              |                                                             |
|------------------------------|-------------------------------------------------------------|
| <b>Programming Languages</b> | Python, Java, HTML, CSS, JavaScript                         |
| <b>Libraries/Frameworks</b>  | NumPy, Pandas, Matplotlib, Scikit-learn, Flask, Bootstrap   |
| <b>Core Concepts</b>         | Object-Oriented Programming, Data Structures and Algorithms |
| <b>Tools</b>                 | Git, GitHub, Visual Studio Code, Eclipse, Jupyter Notebook  |

## Projects

|                           |                   |
|---------------------------|-------------------|
| <b>AI Resume Analyzer</b> | <b>Flask, NLP</b> |
|---------------------------|-------------------|

- Developed an ATS-based Resume Analyzer using Flask and NLP techniques to evaluate resumes based on keyword matching and skill extraction.
- Implemented PDF text extraction and backend file processing for automated resume analysis and scoring.

|                           |                                         |
|---------------------------|-----------------------------------------|
| <b>E-Commerce Website</b> | <b>HTML, CSS, JavaScript, Bootstrap</b> |
|---------------------------|-----------------------------------------|

- Designed and developed a responsive multi-page e-commerce website with interactive product sections and reusable UI components.
- Improved user experience through optimized layouts, responsive design, and structured frontend architecture.

|                                        |                                   |
|----------------------------------------|-----------------------------------|
| <b>Weather Data Analysis Dashboard</b> | <b>Python, Pandas, Matplotlib</b> |
|----------------------------------------|-----------------------------------|

- Developed a weather data analysis application using external APIs to collect and process real-time weather information.
- Utilized Pandas and Matplotlib for data processing, visualization, and trend analysis with structured error handling.

## Internship Experience

|                                                   |                     |
|---------------------------------------------------|---------------------|
| <b>Python Programming Intern — Oasis Infobyte</b> | Aug 2025 – Sep 2025 |
|---------------------------------------------------|---------------------|

- Developed Python applications including a real-time weather system using API integration.
- Built GUI-based applications using Tkinter with modular and maintainable code structure.

|                                          |                     |
|------------------------------------------|---------------------|
| <b>Web Development Intern — InternPe</b> | Oct 2024 – Nov 2024 |
|------------------------------------------|---------------------|

- Designed responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Implemented interactive UI components including landing pages and calculators.

## Certifications

- Frontend Developer — Infosys SpringBoard
- Software Engineer — HackerRank
- Go For Gold — Accenture

## Achievements

- Successfully completed internships in Python Programming and Web Development.
- Built multiple academic and personal projects using Python and Web Technologies.
- Continuously improving problem-solving skills through Data Structures and Algorithms practice.

## Additional Information

**Soft Skills:** Leadership, Problem Solving, Teamwork, Adaptability

**Interests:** Volleyball, Exploring New Places, Learning Emerging Technologies
